No more than 10 pounds to a customer at this cost price.

NOTICE All our meats are guaranteed and Government Inspected. We do not advertise a few articles cheap and then quote you the same meat at 5c and 6c higher and call it a "better grade." We have but one grade—THE BEST—and have no better to sell than we advertise. We have always got the quality and quantity of goods advertised, and plenty of meat cutters to wait on all customers at once.

WHITE HOUSE MEAT MARKET

423 Kansas Avenue

SNAP SHOTS

AT HOME NEWS.

The membership committee of the Commercial club will meet Saturday noon.

The tickets are going fast for the moving picture series at the Auditorium next week.

The annual meeting of the Topeka Jobbers' and Manufacturers' association will be held this evening.

The street crossings today in the downtown district are free from slush for the first time in many weeks.

The next Ad club speaker will tell about how politicians advertise. The speaker will not be a politician, however.

The weather man says it will be warmer tomorrow, and the chances are that another two or three inches of snow will be melted off.

The Capital City Brick company announces that it will employ 30 men regularly the year around making brick for the Topeka pavements.

There is a man in Topeka who is so fond of his wife that when he is playing cards with her and she makes a "bone-head" play, he only smiles.

The person who spells balloon with only one "t" should not be discouraged with his spelling. The press dispatches spell it that way in nearly every report.

Distributors of the new Bell telephone directories today said that it would probably be a year before a directory combining the two systems would be issued.

This is the first winter in many years that the street department of the city of Topeka has found it necessary to shovel snow in wagons and haul it from the streets.

"I'm tired of this snow," said a school boy today. "It is too rough to skate, and there aren't many good hills for coasting."

I wish the snow would melt, so I could play marbles and spin tops.

If you have acquired the "Long Distance habit," your telephone is worth more today than ever before. Both Long Distance systems are merged into one—no division of service—it is all yours.

The Auditorium will be put in a safe condition for the picture series next week. The committee of the Commercial club appointed by President S. J. Hodgins is looking into the question of rewiring the Auditorium in the places where the wiring is defective.

Owners of motor cars are praying for the day that all the ice will be melted from the streets. Frozen snow and slush cut the tires like so much glass. The loss in tire trouble the last few weeks has amounted to many hundred dollars in this city, say the motorists.

An announcement in the current issue of the Santa Fe Employees' Magazine reports the plans of the head surgeon in this city to establish an emergency room in the general offices here. Between certain hours employees of the offices will be given medical treatment.

City officials state that "the misleading and uncalculated for attack of the fire insurance inspectors" on the Auditorium was one reason why Topeka did not obtain the Republican convention. The politicians were afraid of what the insurance men termed a "fire trap."

Members of the congregation of the First Congregational church subscribed \$700 Thursday night towards a \$2,000 building fund. The rest of the money is in sight as one lady in the church has promised to give the last \$300, and the balance of a few hundred dollars can be raised without difficulty among the church members who were not present at the meeting. The church will be put in first class physical condition throughout. When the improvements are completed it will be an up-to-date religious plant.

New crop Kentucky blue grass just in. Prices right. Zimmerman Seed Co.

SANTA FE NOTES.

Items for this column may be phoned to Bell 1723, Ind. 223 Blue or the State Journal.

Engineer John McNeill, who has been running west on trains No. 6 and 7, has been promoted to fuel inspector between Kansas City and El Paso, Tex. His many friends wish him good luck in his new position.

Today is a busy day at the R. R. Y. M. C. A. Checks are cashed there every pay day number 360.

The program for the entertainment at the R. R. Y. M. C. A. this evening under the direction of Miss Maude Mary Kline is as follows:

A Little Dog Barks at a Big Round Moon. Miss Irene McNamara.

The Little Papease. Camant Sherwood.

Washburn Ladies' Quartette.

Original Sketch—A Quiet Evening at Home. Mrs. Isaac McArthur.

Violin Solo—From the Land of the Sky Blue Water. Mrs. Beach Shenna Ban.

Violin Solo—Traueraria. Schumann.

Vocal—You Are the Ideal of My Dreams. Mr. Thomas.

Reading—Sam Stories. Mrs. McArthur.

Vocal—Chanson. Travencolo.

Acqua. Miss Caroline Lovewell.

Violin—Intermezzo from Cavaleria Rusticana. Miss Juliet Hughes.

Reading—Serenade. Mrs. McArthur.

Vocal Thora. Mr. Thomas.

C. A. Wood has accepted the position as stenographer to Frank Cain.

J. M. Connell, general passenger agent, is in Denver, Col., this week.

Members of the congregation of the R. R. Y. M. C. A. left yesterday for St. Louis to attend the national conference of the Gould-line secretaries which is in session today and tomorrow.

E. B. Crow, chief clerk to the chief electrician, is in Emporia today on business.

Albert Collier has accepted the position as stenographer to Mr. M. H. Haig, mechanical engineer, in the place of Robert Ambrose who resigned to the governor.

Mr. Evans, formerly of the master mechanic's office at Chanute, Kan., has taken the position vacated by Mr. Collier in J. N. McGoff's office.

Miss Birdie George of the freight claim department has returned from Cleburne, Tex., where she has been visiting her brother and family.

Mr. Jim Mullin has returned to work in the blacksmith shop after being off several days on account of the death of his brother-in-law, Mr. Aaron Kelley.

The Santa Fe Magazine for March made its appearance yesterday.

SHOWS OFF THE CUT GLASS.

Santa Fe Watch Company Puts in Unique Show Case.

A. S. Thomas, of the Santa Fe Jewelry company, has just installed a new showcase in which to display his stock of cut glass. It is doubtful if there is such a case in the west outside of one or two jewelry houses in Chicago.

The case is so elaborate in design and so different from the ordinary run of store fixtures that it is worthy of some special mention.

Its light effects at night are the feature.

The new pencil lights have been installed in the front of the case, invisible, and throw the light against the plate mirrors at the back. The result is the interior of the case is a dazzle of light reflected from the facets of the glass, the smooth surface of the plate glass shelves and the silver settings.

This is a big wall case, understand, some 20 feet in length and containing some half dozen shelves. It is finished in vertical cut mahogany with silver and bronze trimmings and containing plate glass mirrors at the back and sides and plate glass shelves. Imagine a cut glass display in such a case under the dazzle of the invisible pencil lights. It is a departure, an advance in the gentle art of displaying goods west of the big burg at the mouth of the Hudson river.

ENTER THREE STATES

LaFollette Will Campaign in Nebraska, Oregon and Washington.

Jamestown, N. D., March 15.—Senator LaFollette of Wisconsin announced here today that he would campaign Nebraska, Oregon and Washington in April previous to the presidential preference primaries in those states. The announcement followed a conference with Walter L. Houser, his campaign manager, just back from the Pacific coast.

"Gifford Pinchot knows that Roosevelt not only encouraged but was favorable to LaFollette's candidacy until he came to the point where it might succeed," said Mr. Houser in a statement today.

Milday's Toilet Table

By Mme. D'MILLE

One great advantage of a dry shampoo is that it requires only a few minutes. It takes out all the dust, excess of oil and dandruff, and leaves the scalp clean, cool and refreshed. The best shampoo powder is a mixture of a cupful of corn meal and a small original package of therex. Just sprinkle a little on the head and brush thoroughly through the hair.

A harmless, safe and sure way to remove superfluous hair is to apply a delatone paste. Mix enough powdered delatone with water to cover the hairs, leave on for two minutes, then wipe off, wash the skin and the hairs will be gone.

To keep the skin smooth and soft and make the complexion natural and attractive, rub over the face, neck and arms each morning a lotion made by dissolving a small original package of maystone in a half pint of witch hazel. This is much better than powder, for it will not rub off and the complexion needs no retouching all day long.

There should be a jar of Mother's Salve in every home. It heals minor cuts, burns and scalds without leaving a scar. It is a splendid remedy for sores, skin eruptions, pimples, eczema and similar beauty destroyers.

NORTH SIDE NEWS

Steel Cable Slips; Fractures Joseph Mauer's Skull.

Accident at Inter-Ocean Mills This Morning.

PULLING CAR TO ELEVATOR

Rope Unfastened From Drawbar of Car.

End Shot Forty Feet and Hit Victim's Head.

A steel cable slipped from the drawbar of a freight car at the Inter-Ocean mills about 9 o'clock this morning. The cable rebounded and the end struck Joseph Mauer, a Russian, employed at the mill, on the back of the head.

The blow fractured the base of his skull. He was taken to St. Francis hospital where he is in a critical condition. He has a wife and two children living at Curtis and North Quincy streets. He is 27 years old.

Mauer, with Jim Farrell, Eyrone Palmer and others were pulling on the steel cord which was attached to the drawbar of the car. The car was thus being pulled into position for unloading into the elevator, which is just south of the sidetracks. The men were 40 feet away from the car, when without warning the cable slipped off of the drawbar. All but Mauer jumped out of the way of the rope. The cable had been stretched taut. The rebound as the steel shot back was terrific. Gaining force every foot of the 40 feet which separated the drawbar from the man, the cable sprang through the air. The loose end caught the victim just above the back of the neck. He fell unconscious, bleeding from the wound. He was taken into the mill.

E. F. Tenant today received a letter from Mrs. Tenant who is visiting in California. The letter describes an interesting visit to the Catalina Islands and tells of viewing the bottom of the ocean through the glass bottom boats. Extracts from the letter follow:

"For a long time, in fact a few weeks after our arrival here, the Santa Catalina Islands had been appealing to us, that land of the Pacific fairies and home of mermaids."

"So we picked out a date without any previous plan. If it's pleasant, as all days are pleasant here. The party included Doniphon county folk, Mr. and Mrs. Phil Kelly, W. L. Lynds and family, and Mrs. M. Moore and myself."

"From Long Beach we took the trolley to San Pedro and there boarded the steamer Cabrillo. Yes, we were sick—nearly every one of our party was sick. One old lady was sick from the minute the ship began to move. Her misery was pitiable. However, some young people began laughing at her. Then the epidemic struck the young people. The old lady watched them a few minutes and said: 'It's not so funny now, is it?'"

"But the voyage was short—only 30 miles from San Pedro, and we were soon at the islands."

"The afternoon was spent in sight-seeing. Including a trip in the glass bottomed boats where the mysteries of the deep are made plain. You view the marine grandeur of the ocean bed. Through glass in the bottom of the boat, you see a sight alone worth the trip. You see all kinds of sea plants, kelp, moss, sea cucumbers, etc., growing among the handsome Abalone shells. Several in the party bought these shells of divers, who, at your bidding, dive twenty-five feet below and bring these shells to you from their ocean home."

"Fish were abundant—luna, yellow tail, albacore, bass, etc. The seal were playing on the rocks. One of the party in her enthusiasm said that she would like to see a mermaid, and the guide told her to look in the looking glass."

"We started home about 4 p. m. while the shadows of the Sugar Loaf mountains on the island had begun to touch the sea. We arrived a little after supper time."

Notes and Personals.

Dr. O. P. Davis was called and later Mauer was taken to St. Francis hospital.

This is the first accident of the kind which has ever occurred at the mill.

Mauer has worked for the Inter Ocean people about three years. He was an elevator helper.

W. Curtis, who has been confined to his home at 216 West Curtis street with rheumatism, is reported to be improving and able to be out doors.

For sale—A new twenty-four inch switch. Silver gray. Inquire 1125 North Kansas avenue.

Miss Mildred L. Roberts and Mr. Emmett L. Grimes were married Thursday by Rev. J. W. Waldron, pastor of the Kansas Avenue Methodist church at his parsonage. Mr. and Mrs. Grimes will live on the Harrison farm, eight miles southwest of Topeka.

J. F. Ogee has returned from a short business visit in St. Marys.

The Civic club will join with the Taxpayers' League to defeat the building of a bridge across the Kaw river three miles west of Topeka. A protest meeting of the club will be held Monday night. The proposed bridge is to cost \$25,000, but is regarded unnecessary. Another protest against the proposition was made at a meeting of the Taxpayers' League recently.

The following were present at the home of Mrs. A. C. Gurtler, 1418 North Kansas avenue, where the Merry Matrons were entertained by Mrs. Gurtler Thursday afternoon: Mrs. Bert Keefe, Mrs. John Johnston, Mrs. Henry Barnes, Mrs. Joyce Swartz, Mrs. Raymond Diefenderfer, Mrs. Charles Killian, Mrs. Fred Clark, Mrs. John Sheetz and Mrs. A. C. Gurtler.

A 5-year-old North side boy has been greatly puzzled as to who made God although he is willing to admit that God made everything. Finally he solved the problem and said, "I believe that God just looked in a looking glass and then he made himself."

Miss Florence Fring, of Omaha, who has been visiting at the home of Miss Mabel Jackson, of 406 Saywell street, has returned home.

Watch for McClintock & Stanley's grocery ad 26th. Will be worth while.

Mrs. Alice Timman has opened a neat fruit, confectionery, cigars and tobacco store at corner of Curtis and Kansas avenue. Drop in any time.

Leland Schenk represented the B. Y. P. U. of the North Topeka Baptist church at a convention of the B. Y. P. U. held in Wamogo Thursday.

Miss Nellie Barnes of St. Joseph, Mo., who has been visiting for several weeks with her mother, Mrs. R. T. Harper,
